## Vision

The Nevada Rangeland Resources Commission will be recognized as a credible and reliable source of information relative to the economic and environmental values of Nevada's rangelands and the contribution of the livestock industry to this resource.

# The Nevada Rangeland Resources Commission...

The Nevada Rangeland Resources Commission was created by the Nevada Legislature and is funded by the livestock industry to promote the benefits of rangelands through information, education and collaboration.

## Goals

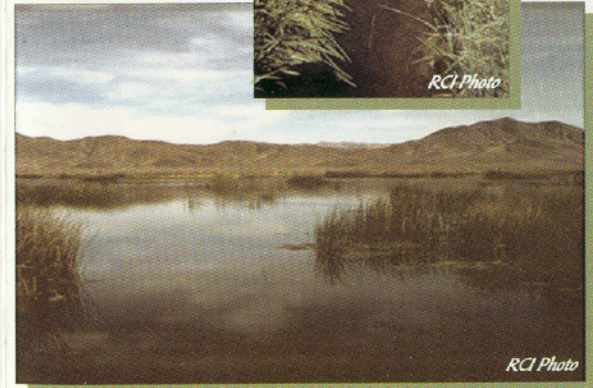

1. Promote public support for Nevada's range livestock industry.
2. Broaden our services and efforts to include all citizens and users of public lands.
3. Achieve and sustain a healthy rangeland resource and livestock industry through responsible, scientifically-based management.
4. Educate the public that Nevada's rangelands are a renewable source of important consumer products and environmental values.
5. Advocate research and balanced use of rangeland resources and provide solutions to related issues.
6. Stabilize Nevada's public land livestock industry.
